

BIG WELCOME FOR TECHNOLOGICAL LOCATING BOARD

FORD DAY WILL ALSO BE DOLLAR DAY FOR VERNON

Large Crowd Expected
to Welcome Locating
Board Which Will Ar-
rive Monday Afternoon

Everything is all set for Ford Day in Vernon Monday. In addition to being Ford Day it is going to be Dollar Day and Vernon merchants are offering on that day some of the biggest bargains for \$1 that they have ever offered. These dollar bargains will be in addition to many other bargains to be had on the same day.

Monday afternoon the Technological Locating Board members will arrive here and it is expected that the thousands of people who will come for the big day will remain late for the festivities of the evening and to help show a whole hearted welcome to the board members.

The many prizes being offered by the merchants will be an attraction for contestants far and near. The list of prizes is contained in advertisements of the various stores giving the prizes and in circulars that have been distributed throughout this territory.

Rules for the parade have been announced by the judges from the Chamber of Commerce as follows: the parade will form in single file on North Main street just north of the Board Office in time to begin promptly at 3 o'clock. The parade will proceed south to the corner of the Farmer's State Bank corner, go around the square and then back to point of origin. After breaking up those who are competing for prizes will park their cars as near as possible to the store which is offering the prize for which they are competing and the judges will then make the rounds as quickly as possible and the merchants will give the prizes away in their stores. Contestants are not to leave their cars until after the awards are made.

RAINS IN WEST HELP HIGHWAY

DIRECTOR WELLS FINDS ROADS
IN GOOD CONDITION FROM
HERE TO COLORADO

J. C. Wells, field director of the Gulf-Colo-riado Highway, was in Vernon yesterday on his way from Colorado Springs to Fort Worth. He said he found the roads in good shape, heavy rains from Childress West having helped the roads considerably.

Mr. Wells said he found a number of tourists coming back who had gone to Colorado through Vernon but on leaving here had been routed by some persons by way of Crowell, Paducah and Plainview to Amarillo instead of by the Gulf-Colo-riado Highway and that the result is they came back by way of Plainview and across to Sweetwater on into Fort Worth, missing Vernon entirely. Mr. Wells said who ever did the routing in Vernon evidently did so with perfectly good intentions to show friendship for Crowell, but that it is losing business for Vernon on the return trip as nine out of ten routed by Crowell will go back by Plainview and Sweetwater.

Confederates To Meet
Members of Camp Cabell, U. C. V. will hold their regular meeting Saturday afternoon at 3 o'clock at their room on the third floor of the court house. The hour of meeting has been changed from 2 o'clock until 3 o'clock.

Return From Fishing
Mr. and Mrs. Al Bedinghaus with their little son, Al, Jr., Mr. and Mrs. B. B. Brooks and daughter and Mrs. J. E. Pearce have returned from a trip on Wanderers creek. They reported good catches.

Dick Kelley, of Frederick, Okla., was in Vernon on business Thursday.

PRESIDENT HARDING SUCCUMBS SUDDENLY IN SAN FRANCISCO

Thought To Be Recover-
ing from Pneumonia
He Is Stricken with Fa-
tal Brain Disease

Warren G. Harding, President of the United States, died instantly of apoplexy, in his room at a San Francisco hotel at 7:30 o'clock Western Time Thursday night as he listened to Mrs. Harding read. He had been ill for exactly one week but four of the nation's most famous physicians had pronounced him past the danger point and that his death was entirely unexpected is evidenced by the fact that not even one of the physicians, who have been attending him during the week, were present when the end came. While Mrs. Harding sat reading she noticed the President quiver and collapse. Two nurses were in the room and called Drs. Sawyer and Boone from another part of the hotel but the President died almost as they entered the room.

With the death of President Harding, Vice-President Calvin Coolidge automatically becomes President of the United States. He was notified of the President's death last night at his home in Plymouth, Vermont.

President Harding would have been 58 years old on November 2, this year. He was born in Blooming Grove, Morrow County, Ohio, November 2, 1865. He was the son of Dr. and Mrs. George T. Harding. He was editor and owner of the Marion, Ohio, Star, having bought that paper at a sheriff's sale when he was but 19 years old. He was a Baptist, being an official in the church at Marion.

That President Harding died a martyr to his office is the expressed opinion of all who come in contact with him. He entered the Presidency less than three years ago in robust health. He has not shirked a single duty since that time though it has been necessary for him to take frequent short trips for relief. At the time of his death he was on a trip over the United States and some of its possessions, having just returned from Alaska and was to have sailed for Panama but the trip was suddenly halted in San Francisco when he became ill, apparently with pneumonia. When this disease was checked his life was snuffed out by a sudden stroke of apoplexy.

BIG REGISTRATION AT TOURIST PARK

CHAIRMAN LON BYARS REPORTS
2667 PERSONS SIGN ON PARK
BOOK DURING JULY

Chairman Lon Byars, of the tourist park committee of the Chamber of Commerce, has reported that during the month of July 2667 people registered at the tourist park and there were many who did not register. This makes an average of a fraction more than 86 persons per day who registered. There were 646 automobiles registered at the park during the month.

Most of the people who registered were those who arrived during daylight hours. There were many who arrived late at night and left early next morning who did not register. At the present time Mr. Byars has found an average of 125 persons per day are using the park.

People from many states of the union are registering at the park. The heaviest traffic, however, is from Texas points. All tourists report the park to be one of the best they have found anywhere in the United States.

With many more electric lights put in, a public telephone and other conveniences in addition to the conveniences already maintained, the park is now equipped as well as a park could be.

PRESIDENT DIES SUDDENLY.

Warren G. Harding

Chief Executive succumbs to sudden stroke of brain apoplexy in his apartment at a San Francisco Hotel at 7:30 Thursday night. Mrs. Harding was reading to him when he died. He was recovering from a slight attack of pneumonia and was thought to be entirely past the danger stage from that disease when, in his weakened condition, apoplexy snuffed out his life.

HUNDREDS OF CITIZENS WITH BRASS BAND WILL MEET PARTY AT QUANAH MONDAY AFTERNOON IN AUTOMOBILES

Dinner at Hillcrest in Honor of Board in
Evening and Tuesday Devoted Only to
Seeing Vernon Institutions and
Sites Offered for New College

Hours well filled with pleasure and business await the Technological Locating Board members when they arrive in Vernon next Monday afternoon. Coming from the West, they will be met at Quanah by about 200 Vernon people headed by a delegation from the Chamber of Commerce, including all the officials and accompanied by the Vernon Concert Band. They will be brought here in automobiles, and will be given dinner at Hillcrest country Club which will conclude the evening of entertainment.

Tuesday the locating board will be busy. In company with Chamber of Commerce officials, they will be taken over both locations offered here for the college. They will also be shown over the city and will be made acquainted with many advantages this city has to offer for the school.

Pictures of Vernon's public buildings and of beauty spots in and about the city have been taken by the Chamber of Commerce and will be filed with the board along with statistics about Vernon and Wilbarger county. At the dinner Monday night a program will be carried out which will place before members of the board facts regarding Vernon which facts are expected to help the members in getting a thorough grasp of the situation here.

Members of the board, who will come to Vernon, are: S. B. Cowell, chairman; W. B. Nabours, secretary; Dr. W. S. Sutton, acting president of the University of Texas; Dr. W. B. Bizzell, president of the Agricultural and Mechanical College; Dr. F. M. Bralley, president of the College of Industrial Arts and S. M. N. Marrs, State Superintendent of Public Instruction.

RESERVOIR EMPTIES WHEN MAIN BREAKS

CITY WAS WITHOUT WATER FOR
SHORT TIME WEDNESDAY
BECAUSE OF BREAK

When the 10 inch water main leading from the reservoirs at the city lake to the town reservoir burst from some unknown cause, late Wednesday afternoon, all the water ran out before the break was shut off and Vernon had a water shortage for several hours. The break was not repaired until Thursday noon, although the main to the lake was shut off so that water from the wells in town was pumped into the main reservoir.

The break in the main, being underground just inside the city limits, most of the water in the standpipe, which was full, ran out before the break was discovered when the ditches in that part of the city near the break began to fill with water.

Just what caused the break has not been ascertained. All the pipe put in on the main only a few months ago was new and city officials say it was thoroughly inspected before being put down.

Legion Members Use White Wash Brushes on Trees at Camp

PERMANENT SPRING BOARDS INSTALLED

CITY OFFICIALS MAKE EXTEN-
SIVE IMPROVEMENTS FOR
BATHERS AT CITY LAKE

Extensive improvements have been made this week at the city lake. City officials, with Commissioner W. W. Bennett in direct charge, are having a bath house for women built on the shores and are erecting permanent spring boards and diving platforms in the lake.

A spring board anchored in concrete, is being erected on the north-west corner of the lake where the water is deep. This spring board is for the benefit of the swimmers. Another spring board is being erected on the peninsula where one has been several times, but has been broken down. It is being anchored in a solid base so it will remain and is for the use of the women and children. Diving platforms are being erected in the lake for the benefit of all bathers.

Committee Asks All Who Can to Join in Welcome at Quanah

R. H. Coffee and E. C. Christian, members of the committee in charge of getting residents to go to Quanah Monday afternoon to meet the Technological board, said this morning 50 automobile owners have already signed up to go.

The committee urges that every automobile owner in the county, who can do so, load up his car with people and be at the Chamber of Commerce building in this city, at 2:30 o'clock Monday afternoon.

Legion Quartered in Armory of National Guard on Main St.

The local post, American Legion, has moved its quarters into the National Guard armory on Main street. Quarters there were given the Legion free of charge by Captain Clyde Watts and his men. The legion recently has started a campaign to raise funds for investment in some manner in the future. A total of \$370 was realized from the carnival which was here recently and is now in the legion treasury.

FRANKIE BAILEY HIDES 'EM OUT IN LOS ANGELES

Frankie Bailey

This picture of Frankie Bailey was taken when the famous chorus girl with "The Million Dollar Legs" was the highest-paid stage figure in the United States because of her wonderfully shapely figure. New York raved about her beauty when she was with Weber and Fields, in "Ye Olden Days".

Now, her health gone and her beauty marred by age, Frankie Bailey, known to every patron of the stage of two decades ago, is working as a clerk in a drug store in Los Angeles. For years she served as a clerk in a cigar store in the famous Edison Building in Broadway, New York, near the scene of her stage triumphs.

"Hope: of All Ills That Men Endure, The Only Cheap and Universal Cure"

—Cowley.

Deep in the heart of every man there lie fond hopes—hidden from the world, but the main-spring of all his activities, the nurse of all his dreams. Who is he that will not cling to these hopes until the last ray of light fades.

Not a man among us but will welcome a sympathetic understanding and a helpful hand in realizing these hopes.

Those having the management of this bank have seen enough of this life to appreciate the motives that actuate human hearts.

We have that sympathetic understanding which is far superior to charity and we offer the helpful hand to the end that both your dreams and ours may be made come true.

Nothing remains but co-operation—and we're ready.

"All Over the World"

WHEAT GROWERS WORK GROUND SOON

FARMER MUST RELY ON HIM-
SELF FOR MAKING PROFIT BY
PRODUCING CHEAP CROP

Wheat growers in this section of the state generally have harvested their crops and are beginning to prepare for next year's crops. The yield in Wilbarger county has not been as heavy as was anticipated, but many farmers made good average yields. Prices, however, have been unsatisfactory.

Regarding the wheat situation generally, the following statement has been issued by the Wheat Improvement Association:

"While it is true that the wheat situation of today is very unsatisfactory, it is also true that the wheat farmer is getting more than his share of advice. Much is being said about reducing the acreage, diversification, rotation, better seed and more livestock, all of which is good. But after all, the wheat farmer is not to get much outside help, he must depend on himself, pretty much, to solve his own problems.

"This year's wheat crop is matured and the supply exceeds the demand. The price is down and no immediate relief is in sight. Much can be done to relieve the situation, however, through more orderly marketing. Federal statistics show that during the past few years, more than 60 per cent of all the wheat went on the market during July, August, September and October. If this should happen again this year, there is no doubt but that the price would drop still lower.

"While there seems to be no immediate relief in sight as far as better prices are concerned, for this year's crop, yet this is the time to begin to figure for next year. In many cases a reduction in acreage may be needed. Along with less acreage, cheaper costs of production are needed. The average yield of the southwest, about 12 bushels per acre, is too low. This yield returns less than the cost of production. If labor at prevailing wages, interest, depreciation and decrease in soil fertility is considered, higher yields must come through early control of insects and plant diseases."

Why Not For Permanent Total Disability?

Lots of our members had overlooked the fact that we had other than death benefits. They with others that knew it now think more of their organization than ever. When a member suffers a permanent loss either from sickness or accident why not let him or her get the good of the insurance while living? That's our idea. We pay for loss of limbs, eyes, permanent total disability and old age the same as for death; that cancels the insurance and nothing to pay at death. Half the benefit for one limb and third for one eye and insurance continued with proper limitations. Six ways to collect before death.

CHLOROFORMS WIFE FOR HEADACHE

My daughter has suffered with stomach trouble and headaches for 3 years. My wife had headaches so bad we had to chloroform her. I also suffered with stomach trouble for years. My wife, daughter and I all used Ferrasol with wonderful results. My daughter is feeling better than she has in 3 years. My wife's headaches have left her and there has been a wonderful change in me. Anyone doubting this testimonial write or call me and I will at any time recommend Ferrasol.

"Well!
Strong!"

Mrs. Anna Clover, of R. F. D. 5, Winfield, Kans., says: "I began to suffer some months ago with womanly troubles, and I was afraid I was going to get in bed. Each month I suffered with my head, back and sides—a weak, aching, nervous feeling. I began to try medicines as I knew I was getting worse. I did not seem to find the right remedy until someone told me of

CARDUI

The Woman's Tonic

I used two bottles before I could see any great change, but after that it was remarkable how much better I got. I am now well and strong. I can recommend Cardui, for it certainly benefited me. If you have been experimenting on yourself with all kinds of different remedies, better get back to good, old, reliable Cardui, the medicine for women, about which you have always heard, which has helped many thousands of others, and which should help you, too. Ask your neighbor about it; she has probably used it.

DISCOVERING ALASKA.

Most of us knew all along that Alaska belongs to the United States, but this fact had never been looked upon as a very important matter. Most of us regard Alaska as bit of the frozen northland that is worth little and fit only for the habitation of the Eskimo.

But President Harding's visit to this northernmost possession of ours has riveted attention to Alaska in a way that is likely to result in an inventory of Alaska's wealth which will prove a revelation to the average American.

Instead of being an icebound country incapable of producing anything more than minerals from its land and fish from its seas, bays and rivers, Alaska is a wonderfully productive land. Many crops are successfully grown there. The climate of Alaska is about the same as some of the countries of northern Europe that sustain great populations. There is no good reason why Alaska shouldn't do as much and it will as soon as some of our Americans realize that here is a rich new country awaiting development that will add greatly to the wealth of the people who inhabit it and will ultimately make a considerable contribution to the greatness of the United States.

President Harding's reference to the possibilities of statehood at a not far distant time indicates that the chief executive has caught a new vision of the possibilities of our northern territory. The President's visit will hasten the colonization of Alaska by the same sturdy type of men that conquered our western states and brought them into first importance in the rank of the sisterhood of American states.

MR. UNDERWOOD'S CANDIDACY.

The announcement of Senator Underwood of Alabama that he is willing to be drafted as the Democratic candidate for the presidency in 1924 brings into the list of avowed aspirants for the highest office within the gift of the American people one of the most able and highly respected men in public life today.

Although a Democrat of the old school, he is still possessed of a facility of mind which enables him to appreciate that new conditions require new methods of treatment and our modern problems of state cannot be successfully met with the remedies of half a century ago.

Mr. Underwood's conserva-

tism is one which looks upon the political dogmas of the past more as statements of principle than as specific formulae. His type of mind forms a happy combination of the traditions of the past with aspirations of the present.

Perhaps there is not another man in the Democratic party who enjoys the confidence and respect of all factions of his party to the degree that Senator Underwood does. He is neither radical nor conservative in the strictest meaning of these terms. He is a combination of the virtues of both elements with few of the vagaries of either.

Of course, there is the stock objection to Senator Underwood on the ground that he comes from a Southern and solidly Democratic state, but it is about time that we looked more to qualifications of the man we offer for the presidency than we do to such matters of political expediency as a candidate's place of residence. Senator Underwood should make an ideal President, but under our system of nominating candidates it is not likely that the Democratic party will rise above considerations of party expediency. It is doubtful therefore if the Underwood candidacy can withstand the blighting influence generated by the notion that no Southerner can be elected President.

THE COTTON OUTLOOK.

The issuance of the Government cotton report forecasting a crop of about eleven and a half million bales this year has sent prices upward in anticipation of the scarcity that is expected to follow the short crop.

Every indication seems to point to good cotton prices this fall and it is likely that Wilbarger County will produce a larger crop than last year. We have a larger acreage and the condition of the crop is better than it was at this time a year ago. The dry weather of the last few weeks has damaged cotton in the county some, but with rain in the next ten days or two weeks there is no doubt that we will make a good crop.

A good crop with the practical certainty of good prices will bring an unusual prosperity to the county this year. There is no occasion for discouragement over present conditions.

"SALE" and "bargain" are attractive words. But there is something more attractive in Standard Goodyear Service. For one thing, it is trustworthy. When you buy a Goodyear Tire from us authorized Goodyear Dealers, you know we'll help you get all the mileage out of it. That's real economy. "Bargains" sometimes aren't.

At Goodyear Service Station Dealers we sell and recommend the new Goodyear tires with the treaded All-Weather Tread and back them up with standard Goodyear Service.

STUDEBAKER
1924 MODELS

Studebaker presents its complete line of 1924 models, announced a week ago, with the conviction that they will increase the prestige of the name Studebaker which, for 71 years, has stood for the best in transportation, quality and value of product.

Into these 1924 cars are built every proved feature in design that makes for the comfort, convenience and safety of passengers, and many refinements that further enhance the value of a line of cars already highly perfected.

It is common knowledge in the steel industry that Studebaker uses only the highest grades of the finest steels. And the same is true of the electrical equipment, instruments, bearings, batteries, upholstery, finishing paints, tires and accessories used in Studebaker cars.

It is equally well known that Studebaker, with \$90,000,000 of actual net assets, including \$45,000,000 of plant facilities, is unsurpassed in ability and

resources to manufacture economically and give maximum intrinsic value for a given price.

Produced under these favorable conditions, the 1924 Studebakers are distinctly the finest cars and greatest values Studebaker ever offered.

These are not careless statements. They are facts that reflect the honesty and integrity of the manufacturer and its product just as they do the truth of Studebaker advertising.

The public has placed its confidence in Studebaker by accepting these facts, supported by the performance of Studebaker cars in owners' use. That's why Studebaker sales for the past six years have increased progressively each year and sales for the first six months of 1923 of 81,880 cars broke all six months' records.

Studebaker never cheapens quality to meet competition. The name Studebaker stands for satisfaction and service.

VERNON PEOPLE GO TO RAYLAND TODAY

FREE BARBECUE AND PICNIC EXPECTED TO ATTRACT MANY CITIZENS FROM HERE

VERNON PEOPLE GO 2

Every person who can go so, is being urged by the Vernon Chamber of Commerce to go to Rayland tomorrow to attend the big free barbecue, picnic and rodeo. It is an annual event at Rayland and a good representation of citizens is expected to attend.

Because of the fact that the picnic is going to be on Saturday there will not be as many business men able to attend as was expected. Most all members of the Vernon Band are working and can not leave Saturday, and for that reason it is doubtful if the band will be able to go.

At the Chamber of Commerce this morning it was said that many people from Vernon are expected to go tomorrow morning to be there at noon but others who will represent the Chamber of Commerce, and those who can not go in the morning, will leave from the Chamber of Commerce at 2:30 in the afternoon.

"Gimme" Is Screen Production To Be at Vernon Theatre

A Rupert Hughes picture is always awaited with the keenest anticipation and his latest one, "Gimme," written in collaboration with his wife, promises to be fully as fine as any of its predecessors. It is another of those delightful comedy dramas of married life, scintillating with Hughes humor and at the same time with an occasional touch of pathos.

Helene Chadwick and Gaston Glass have the leading roles in this Goldwyn production which will be at the Vernon Theatre for two days beginning Monday. Miss Chadwick, whose impersonation of the role of young wife in other of Mr. Hughes' pictures have been a rare delight, has a similar role in this one. She plays the part of Fanny Daniels, who finds herself upon her marriage to Clinton Ferris, the non-self-supporting son of moneyed parents, in the humiliating though not uncommon situation of being obliged to say "Gimme" for every cent she needs, for household things as well as finery.

Blackie Garner to Be Brought Here on Adultery Charge

Sheriff Frank Edmondson left today for Archer City to bring back J. J. (Blackie) Garner for whom he holds a warrant on an adultery charge. Garner is now out under bond on a murder charge in connection with a recent killing in the oil fields of Archer county. He was arrested by State rangers following the shooting to death of a man who said in a dying statement, that his life had been threatened by persons who accused him of giving information to officers regarding whiskey selling in the oil fields.

City Marshall Warns Against Parking in Middle of Streets

City Marshal J. D. Key has issued a warning that double parking on the streets in the downtown section must be stopped. This form of parking is against the law and the City Marshal says the law is going to be enforced. Double parking, Mr. Key said, is the cause of many accidents and he is warning all those who park that way that it must be discontinued at once.

WAVE OF COMMUNISM SWEEPING GERMANY.

Frankfurt a/Mann.

A wave of Communism is sweeping Germany, increasing with each widespread depreciation of the value of the mark. Frankfurt on the Main, one of Germany's largest industrial cities, just outside the French zone of occupation in the Ruhr, has been the scene of the greatest outbreaks, many being killed and wounded there, and far graver trouble is anticipated, now that the Government has forbidden further meetings there of the radical elements.

Dodge Brothers Plan Larger Production at New Enlarged Plant

An immense new assembly building duplicating the present structure in size, is announced by Dodge Brothers as the principal unit of the 1923 expansion program.

The building is six stories high, 1000 feet long and 75 feet wide, with more than one-half million square feet of floor space. Construction work which started some months ago is now nearly completed. The new assembly building paralleling the old structure marked the boundary line of the great Dodge Brothers factories.

Factory executives would not comment on the number of additional cars contemplated in this extensive addition, but it is believed that the immediate aim is a capacity of 1,000 cars a day. In the face of the greatly over sold condition which prevailed throughout the entire year just past, it is not unreasonable to assume that this number mentioned could be absorbed easily by Dodge Brothers and dealers.

Other units of the expansion program are the new cyanide building, a million dollar addition to the power house, and a mammoth new closed body building. The latter is completed, several floors having been occupied for some time. It is estimated that the total investment represented by these additions in buildings alone, will reach \$5,000,000.

Fishing at McCaleb Well Is Successful and Drilling Starts

Fishing operations which have been under way at McCaleb well No. 1 near Downs, ever since operations at the well were resumed several weeks ago, have proven successful and drilling has been resumed. The tools which were lost were fished out yesterday at noon and today the drill is going down.

This well was started about three years ago but operations were suspended more than two years ago and were only recently resumed.

JERSEY CATTLE BREEDERS INTERESTED IN FAIR

Each succeeding year at the State Fair of Texas, the showing of Jersey cattle has reflected the growth of the breed in Texas. There will be no exception at the 1923 State Fair. Interest of Jersey owners and breeders has already centered about the State Fair of Texas, October 13 to 23. A national publication has asked for the date on which Jersey cattle will be judged at the Texas exposition. It will be October 18, and the judge will be C. H. Staples of Baton Rouge, La.

Couple Married in Chillicothe June 29 Now Reveal Secret

Mr. and Mrs. Damon Shive, popular couple of Vernon have announced their marriage which occurred at Chillicothe, Friday night at 9:30 o'clock, June 29. The ceremony was performed by the pastor of the Presbyterian church at the manse there.

Mr. and Mrs. Shive attended a house party in Wichita Falls last week and decided Sunday to make the announcement to their relatives in Vernon. They went from Wichita to Fort Worth on a visit with friends returning this week and are at home for the present with Mrs. Shive's parents on West Texas street.

Mrs. Shive before marriage was Miss Audrey Virginia Cook, daughter of Mr. and Mrs. J. Shirley Cook of Vernon. The family have lived here for several years. She was a student in Miss Hockaday's school at Dallas.

Mr. Shive is a son of Mr. and Mrs. R. D. Shive, of Vernon and like his father was born and reared here.

For the past two years he has been associated with the firm of Shive, Piper and Wright.

HARROLD SCHOOLS MAKE BIG STRIDE

GET ADDITIONAL CREDITS WITH
COLLEGES AND MAKE IM-
PROVEMENTS IN BUILDINGS

The Harrold School has just had a report from the State Department of Education stating that Harrold now has thirteen and one-half units affiliation with Texas colleges. This affiliation is in the following subjects: three in English, three in history, two in algebra, one in plane geometry, one in physics, two in home economics, one and one-half in agriculture. This was all that was asked for this year. About four and one-half units additional will be asked for next year, making all that is needed for colleges entrance.

This makes three years of continued growth for the Harrold Schools, first getting second class, then last year getting first class classification, and then this year getting affiliation.

The teachers for the ensuing year are: R. S. Covey, Superintendent; mathematics, agriculture and chemistry; E. F. Covey, history, math and civics; Miss Rebecca Dare Scott, English and history; Miss Bertha Stockard, home economics and English; Miss Honora Silbert, public speaking, music and expression; Miss Lena Stephens, sixth grade; Miss Vera Walker, fourth and fifth grades; Miss Edna Stephens, second and third grades; Miss Irby Coker, first grade; All of the above teachers taught in the Harrold Schools last year with the exception of Miss Silbert.

A modern gymnasium is now under construction for the Harrold School. The building is 88' x 68'. It will have a large basketball court and room for other indoor sports. It will be used by the entire school. It will be equipped with modern shower baths, hot and cold water, etc. It will have a seating capacity of about five hundred people. It will be completed before school begins, which is September 3.

WARD INDICTED AGAIN IN PETERS KILLING

Walter S. Ward.

Walter S. Ward, son of the multi-millionaire New York baker, is shown on his way to the courthouse in White Plains, N. Y., to surrender to a second indictment charging him with murder in the first degree for killing Clarence Peters, a shiftless former United States sailor. Ward was indicted once before, but the indictment was dismissed without trial. The clamor this act caused forced Governor Smith to order Attorney General Sherman and Supreme Court Justice Wagner to call a second Grand Jury, which re-indicted the young millionaire. The real story of the killing has never been told Ward having contented himself with declaring he killed Peters when the latter tried to blackmail him.

SERVICE

Prompt, Efficient and Satisfactory

At the peak season of Ice consumption our every effort is being put forth to give every customer satisfaction in every respect. Nothing is being left undone that will in any way add to the efficiency of our Ice distribution.

Our wagons begin their rounds early and stay busy until every customer receives their Ice. Should one of our wagons pass you up will you not do us the favor to call our office. If you do not have an Ice card phone us and we will gladly furnish you with one. It will greatly assist our drivers and assure you better service if you will see that your card is in its place early in the morning.

All the Ice is scored by a large scoring machine that insures correct sizes and smooth surfaces. There is no cracks and no irregular corners. This machine also insures full and correct weights.

We will appreciate it very much if you will phone us any suggestion and will assist us in giving you better service.

"There's nothing quite so good as the original Ward's 'Crushes'."

INSIST on the best

"Smiles to the sip" is the test of Ward's original "Crushes." You get the longest "smilage" only from the genuine Ward's Orange, Lemon or Lime Crushes. Ward's Crushes owe their distinctive and delightful flavors to the natural fruit oils of oranges, lemons and limes. To these have been added pure cane sugar, citrus fruit juices, U. "The Store With the Goods"

BIG WELCOME FOR TECHNOLOGICAL LOCATING BOARD

FORD DAY WILL ALSO BE DOLLAR DAY FOR VERNON

Large Crowd Expected
to Welcome Locating
Board Which Will Ar-
rive Monday Afternoon

Everything is all set for Ford Day in Vernon Monday. In addition to being Ford Day it is going to be Dollar Day and Vernon merchants are offering on that day some of the biggest bargains for \$1 that they have ever offered. These dollar bargains will be in addition to many other bargains to be had on the same day.

Monday afternoon the Technological College Locating Board members will arrive here and it is expected that the thousands of people who will come for the big day will remain late for the festivities of the evening and to help show a whole hearted welcome to the board members.

The many prizes being offered by the merchants will be an attraction for contestants far and near. The list of prizes is contained in advertisements of the various stores giving the prizes and in circulars that have been distributed throughout this territory.

Rules for the parade have been announced by the judges from the Chamber of Commerce as follows: the parade will form in single file on North Main street just north of the R. and O. office in time to begin promptly at 3 o'clock. The parade will proceed south to the corner of the Farmer's State Bank corner, go around the square and then back to point of origin. After breaking up those who are competing for prizes will park their cars as near as possible to the store which is offering the prize for which they are competing and the judges will then make the rounds as quickly as possible and the merchants will give the prizes away in their stores. Contestants are not to leave their cars until after the awards are made.

RAINS IN WEST HELP HIGHWAY

DIRECTOR WELLS FINDS ROADS
IN GOOD CONDITION FROM
HERE TO COLORADO

J. C. Wells, field director of the Gulf-Colored Highway, was in Vernon yesterday on his way from Colorado Springs to Fort Worth. He said he found the roads in good shape, heavy rains from Childress West having helped the roads considerably.

Mr. Wells said he found a number of tourists coming back who had gone to Colorado through Vernon but on leaving here had been routed by some persons by way of Crowell, Paducah and Plainview to Amarillo instead of by the Gulf-Colored Highway and that the result is they came back by way of Plainview and across to Sweetwater on into Fort Worth, missing Vernon entirely. Mr. Wells said who ever did so with perfectly good intentions to show friendship for Crowell, but that it is losing business for Vernon on the return trip as nine out of ten routed by Crowell will go back by Plainview and Sweetwater.

PRESIDENT HARDING SUCCUMBS SUDDENLY IN SAN FRANCISCO

Thought To Be Recover-
ing from Pneumonia
He Is Stricken with Fa-
tal Brain Disease

Warren G. Harding, President of the United States, died instantly of apoplexy, in his room at a San Francisco hotel at 7:30 o'clock Western Time Thursday night as he listened to Mrs. Harding read. He had been ill for exactly one week but four of the nation's most famous physicians had pronounced him past the danger point and that his death was entirely unexpected is evidenced by the fact that not even one of the physicians, who have been attending him during the week, were present when the end came. While Mrs. Harding sat reading she noticed the President quiver and collapse. Two nurses were in the room and called Drs. Sawyer and Boone from another part of the hotel but the President died almost as they entered the room.

With the death of President Harding, Vice-President Calvin Coolidge automatically becomes President of the United States. He was notified of the President's death last night at his home in Plymouth, Vermont.

President Harding would have been 58 years old on November 2, this year. He was born in Blooming Grove, Morrow County, Ohio, November 2, 1865. He was the son of Dr. and Mrs. George T. Harding. He was editor and owner of the Marion, Ohio, Star, having bought that paper at a sheriff's sale when he was but 19 years old. He was a Baptist, being an official in the church at Marion.

That President Harding died a martyr to his office is the expressed opinion of all who come in contact with him. He entered the Presidency less than three years ago in robust health. He has not shirked a single duty since that time though it has been necessary for him to take frequent short trips for relief. At the time of his death he was on a trip over the United States and some of his possessions, having just returned from Alaska and was to have sailed for Panama but the trip was suddenly halted in San Francisco when he became ill, apparently with pneumonia. When this disease was checked his life was snuffed out by a sudden stroke of apoplexy.

BIG REGISTRATION AT TOURIST PARK

CHAIRMAN LON BYARS REPORTS
2667 PERSONS SIGN ON PARK
BOOK DURING JULY

Chairman Lon Byars, of the tourist park committee of the Chamber of Commerce, has reported that during the month of July 2667 people registered at the tourist park and there were many who did not register. This makes an average of a fraction more than 86 persons per day who registered. There were 646 automobiles registered at the park during the month.

Most of the people who registered were those who arrived during daylight hours. There were many who arrived late at night and left early next morning who did not register. At the present time Mr. Byars has found an average of 125 persons per day are using the park.

People from many states of the union are registering at the park. The heaviest traffic, however, is from Texas points. All tourists report the park to be one of the best they have found anywhere in the United States.

With many more electric lights put in, a public telephone and other conveniences in addition to the conveniences already maintained, the park is now equipped as well as a park could be.

PRESIDENT DIES SUDDENLY.

Warren G. Harding

Chief Executive succumbs to sudden stroke of brain apoplexy in his apartment at a San Francisco Hotel at 7:30 Thursday night. Mrs. Harding was reading to him when he died. He was recovering from a slight attack of pneumonia and was thought to be entirely past the danger stage from that disease when, in his weakened condition, apoplexy snuffed out his life.

HUNDREDS OF CITIZENS WITH BRASS BAND WILL MEET PARTY AT QUANAH MONDAY AFTERNOON IN AUTOMOBILES

Dinner at Hillcrest in Honor of Board in
Evening and Tuesday Devoted Only to
Seeing Vernon Institutions and
Sites Offered for New College

Hours well filled with pleasure and business await the Technological Locating Board members when they arrive in Vernon next Monday afternoon. Coming from the West, they will be met at Quanah by about 200 Vernon people headed by a delegation, from the Chamber of Commerce, including all the officials and accompanied by the Vernon Concert Band. They will be brought here in automobiles, and will be given dinner at Hillcrest country Club which will conclude the evening of entertainment.

Tuesday the locating board will be busy. In company with Chamber of Commerce officials, they will be taken over both locations offered here for the college. They will also be shown over the city and will be made acquainted with many advantages this city has to offer for the school.

Pictures of Vernon's public buildings and of beauty spots in and about the city have been taken by the Chamber of Commerce and will be filed with the board along with statistics about Vernon and Wilbarger county. At the dinner Monday night a program will be carried out which will place before members of the board facts regarding Vernon which facts are expected to help the members in getting a thorough grasp of the situation here.

Members of the board, who will come to Vernon, are: S. B. Cowell, chairman; W. B. Nabours, secretary; Dr. W. S. Sutton, acting president of the University of Texas; Dr. W. B. Bizzell, president of the Agricultural and Mechanical College; Dr. F. M. Bralley, president of the College of Industrial Arts and S. M. N. Marrs, State Superintendent of Public Instruction.

RESERVOIR EMPTIES WHEN MAIN BREAKS

CITY WAS WITHOUT WATER FOR
SHORT TIME WEDNESDAY
BECAUSE OF BREAK

When the 10 inch water main leading from the reservoirs at the city lake to the town reservoir burst from some unknown cause, late Wednesday afternoon, all the water ran out before the break was shut off and Vernon had a water shortage for several hours. The break was not repaired until Thursday noon, although the main to the lake was shut off so that water from the wells in town was pumped into the main reservoir.

The break in the main, being underground just inside the city limits most of the water in the standpipe, which was full, ran out before the break was discovered when the ditches in that part of the city near the break began to fill with water.

Just what caused the break has not been ascertained. All the pipe put in on the main only a few months ago was new and city officials say it was thoroughly inspected before being put down.

PERMANENT SPRING BOARDS INSTALLED

CITY OFFICIALS MAKE EXTEN-
SIVE IMPROVEMENTS FOR
BATHERS AT CITY LAKE

Extensive improvements have been made this week at the city lake. City officials, with Commissioner W. W. Bennett in direct charge, are having a bath house for women built on the shores and are erecting permanent spring boards and diving platforms in the lake.

A spring board anchored in concrete, is being erected on the north-west corner of the lake where the water is deep. This spring board is for the benefit of the swimmers. Another spring board is being erected on the peninsula where one has been several times, but has been broken down. It is being anchored in a solid base so it will remain and is for the use of the women and children. Diving platforms are being erected in the lake for the benefit of all bathers.

FRANKIE BAILEY HIDES 'EM OUT IN LOS ANGELES

Frankie Bailey

This picture of Frankie Bailey was taken when the famous chorus girl with "The Million Dollar Legs" was the highest-paid stage figure in the United States because of her wonderfully shapely figure. New York raved about her beauty when she was with Weber and Fields, in "Ye Olden Days". Now, her health gone and her beauty marred by age, Frankie Bailey, known to every patron of the stage of two decades ago, is working as a clerk in a drug store in Los Angeles. For years she served as a clerk in a cigar store in the famous Flairon Building in Broadway, New York, near the scene of her stage triumphs.

"Hope: of All Ills That Men Endure,
The Only Cheap and Universal Cure"

—Cowley.

Deep in the heart of every man there lie fond hopes—hidden from the world, but the main-spring of all his activities, the nurse of all his dreams. Who is he that will not cling to these hopes until the last ray of light fades.

Not a man among us but will welcome a sympathetic understanding and a helpful hand in realizing these hopes.

Those having the management of this bank have seen enough of this life to appreciate the motives that actuate human hearts.

We have that sympathetic understanding which is far superior to charity and we offer the helpful hand to the end that both your dreams and ours may be made come true.

Nothing remains but co-operation—and we're ready.

WHEAT CROWERS WORK GROUND SOON.

FARMER MUST RELY ON HIM-
SELF FOR MAKING PROFIT BY
PRODUCING CHEAP CROP

Wheat growers in this section of the state generally have harvested their crops and are beginning to prepare for next year's crops. The yield in Wilbarger county has not been as heavy as was anticipated, but many farmers made good average yields. Prices, however, have been unsatisfactory.

Regarding the wheat situation generally, the following statement has been issued by the Wheat Improvement Association:

"While it is true that the wheat situation of today is very unsatisfactory, it is also true that the wheat farmer is getting more than his share of advice. Much is being said about reducing the acreage, diversification, rotation, better seed and more livestock, all of which is good. But after all, the wheat farmer is not to get much outside help, he must depend on himself, pretty much, to solve his own problems.

"This year's wheat crop is matured and the supply exceeds the demand. The price is down and no immediate relief is in sight. Much can be done to relieve the situation, however, through more orderly marketing. Federal statistics show that during the past few years, more than 60 per cent of all the wheat went on the market during July, August, September and October. If this should happen again this year, there is no doubt but that the price would drop still lower.

"While there seems to be no immediate relief in sight as far as better prices are concerned, for this year's crop, yet this is the time to begin to figure for next year. In many cases a reduction in acreage may help. Along with less acreage, cheaper costs of production are needed. The average yield of the southwest, about 12 bushels per acre, is too low. This yield returns less than the cost of production. If labor at prevailing wages, interest, depreciation and decrease in soil fertility is considered, higher yields must come through early control of insects and plant diseases."

Why Not For Permanent Total Disability?

Lots of our members had overlooked the fact that we had other than death benefits. They with others that knew it now think more of their organization than ever. When a member suffers a permanent loss either from sickness or accident why not let him or her get the good of the insurance while living? That's our idea. We pay for loss of limbs, eyes, permanent total disability and old age the same as for death; that cancels the insurance and nothing to pay at death. Half the benefit for one limb and third for one eye and insurance continued with proper limitations. Six ways to collect before death.

Mrs. Anna Clover, of R. F. D. 5, Wintfield, Kans., says: "I began to suffer some months ago with womanly troubles, and I was afraid I was going to get in bed. Each month I suffered with my head, back and sides—a weak, aching, nervous feeling. I began to try medicines as I knew I was getting worse. I did not seem to find the right remedy until someone told me of

DISCOVERING ALASKA.

Most of us knew all along that Alaska belongs to the United States, but this fact had never been looked upon as a very important matter. Most of us regard Alaska as bit of the frozen northland that is worth little and fit only for the habitation of the Eskimo.

But President Harding's visit to this northernmost possession of ours has riveted attention to Alaska in a way that is likely to result in an inventory of Alaska's wealth which will prove a revelation to the average American.

Instead of being an icebound country incapable of producing anything more than minerals from its land and fish from its seas, bays and rivers, Alaska is a wonderfully productive land. Many crops are successfully grown there. The climate of Alaska is about the same as some of the countries of northern Europe that sustain great populations. There is no good reason why Alaska shouldn't do as much and it will as soon as some of our Americans realize that here is a rich new country awaiting development that will add greatly to the wealth of the people who inhabit it and will ultimately make a considerable contribution to the greatness of the United States.

President Harding's reference to the possibilities of statehood at a not far distant time indicates that the chief executive has caught a new vision of the possibilities of our northern territory. The President's visit will hasten the colonization of Alaska by the same sturdy type of men that conquered our western states and brought them into first importance in the rank of the sisterhood of American states.

MR. UNDERWOOD'S CANDIDACY.

The announcement of Senator Underwood of Alabama that he is willing to be drafted as the Democratic candidate for the presidency in 1924 brings into the list of avowed aspirants for the highest office within the gift of the American people one of the most able and highly respected men in public life today. Although a Democrat of the old school, he is still possessed of a facility of mind which enables him to appreciate that new conditions require new methods of treatment and our modern problems of state cannot be successfully met with the remedies of half a century ago. Mr. Underwood's conserva-

tism is one which looks upon the political dogmas of the past more as statements of principle than as specific formulae. His type of mind forms a happy combination of the traditions of the past with aspirations of the present.

Perhaps there is not another man in the Democratic party who enjoys the confidence and respect of all factions of his party to the degree that Senator Underwood does. He is neither radical nor conservative in the strictest meaning of these terms. He is a combination of the virtues of both elements with few of the vagaries of either.

Of course, there is the stock objection to Senator Underwood on the ground that he comes from a Southern and solidly Democratic state, but it is about time that we looked more to qualifications of the man we offer for the presidency than we do to such matters of political expediency as a candidate's place of residence. Senator Underwood should make an ideal President, but under our system of nominating candidates it is not likely that the Democratic party will rise above considerations of party expediency. It is doubtful therefore if the Underwood candidacy can withstand the blighting influence generated by the notion that no Southerner can be elected President.

THE COTTON OUTLOOK.

The issuance of the Government cotton report forecasting a crop of about eleven and a half million bales this year has sent prices upward in anticipation of the scarcity that is expected to follow the short crop.

Every indication seems to point to good cotton prices this fall and it is likely that Wilbarger County will produce a larger crop than last year. We have a larger acreage and the condition of the crop is better than it was at this time a year ago. The dry weather of the last few weeks has damaged cotton in the county some, but with rain in the next ten days or two weeks there is no doubt that we will make a good crop.

A good crop with the practical certainty of good prices will bring an unusual prosperity to the county this year. There is no occasion for discouragement over present conditions.

STUDEBAKER 1924 MODELS

Studebaker presents its complete line of 1924 models, announced a week ago, with the conviction that they will increase the prestige of the name Studebaker which, for 71 years, has stood for the best in transportation, quality and value of product.

Into these 1924 cars are built every proved feature in design that makes for the comfort, convenience and safety of passengers, and many refinements that further enhance the value of a line of cars already highly perfected.

It is common knowledge in the steel industry that Studebaker uses only the highest grades of the finest steels. And the same is true of the electrical equipment, instruments, bearings, batteries, upholstery, finishing paints, tires and accessories used in Studebaker cars.

It is equally well known that Studebaker, with \$90,000,000 of actual net assets, including \$45,000,000 of plant facilities, is unsurpassed in ability and

resources to manufacture economically and give maximum intrinsic value for a given price.

Produced under these favorable conditions, the 1924 Studebakers are distinctly the finest cars and greatest values Studebaker ever offered.

These are not careless statements. They are facts that reflect the honesty and integrity of the manufacturer and its product just as they do the truth of Studebaker advertising.

The public has placed its confidence in Studebaker by accepting these facts, supported by the performance of Studebaker cars in owners' use. That's why Studebaker sales for the past six years have increased progressively each year and sales for the first six months of 1923 of 81,880 cars broke all six months' records.

Studebaker never cheapens quality to meet competition. The name Studebaker stands for satisfaction and service.

VERNON PEOPLE GO TO RAYLAND TODAY

FREE BARBECUE AND PICNIC EXPECTED TO ATTRACT MANY CITIZENS FROM HERE

VERNON PEOPLE GO 2

Every person, who can go so, is being urged by the Vernon Chamber of Commerce to go to Rayland tomorrow to attend the big free barbecue, picnic and rodeo. It is an annual event at Rayland and a good representation of citizens is expected to attend.

Because of the fact that the picnic is going to be on Saturday there will not be as many business men able to attend as was expected. Most all members of the Vernon Band are working and can not leave Saturday and for that reason it is doubtful if the band will be able to go.

At the Chamber of Commerce this morning it was said that many people from Vernon are expected to go tomorrow morning to be there at noon but others who will represent the Chamber of Commerce, and those who can not go in the morning, will leave from the Chamber of Commerce at 2:30 in the afternoon.

"Gimme" Is Screen Production To Be at Vernon Theatre

A Rupert Hughes picture is always awaited with the keenest anticipation and his latest one, "Gimme," written in collaboration with his wife, promises to be fully as fine as any of its predecessors. It is another of those delightful comedy dramas of married life, scintillating with Hughes humor and at the same time with an occasional touch of pathos.

Helene Chadwick and Gaston Glass have the leading roles in this Goldwyn production which will be at the Vernon Theatre for two days beginning Monday. Miss Chadwick, whose impersonation of the role of young wife in other of Mr. Hughes' pictures have been a rare delight, has a similar role in this one. She plays the part of Fanny Daniels, who finds herself upon her marriage to Clinton Ferris, the non-self-supporting son of moneyed parents, in the humiliating though not uncommon situation of being obliged to say "Gimme" for every cent she needs, for household things as well as flattery.

Blackie Garner to Be Brought Here on Adultery Charge

Sheriff Frank Edmondson left today for Archer City to bring back J. J. (Blackie) Garner for whom he holds a warrant on an adultery charge. Garner is now out under bond on a murder charge in connection with a recent killing in the oil fields of Archer county. He was arrested by State rangers following the shooting to death of a man, who said in a dying statement, that his life had been threatened by persons who accused him of giving information to officers regarding whiskey selling in the oil fields.

City Marshal Warns Against Parking in Middle of Streets

City Marshal J. D. Key has issued a warning that double parking on the streets in the downtown section must be stopped. This form of parking is against the law and the City Marshal says the law is going to be enforced. Double parking, Mr. Key said, is the cause of many accidents and he is warning all those who park that way that it must be discontinued at once.

WAVE OF COMMUNISM SWEEPING GERMANY.

Frankfurt a/M.

A wave of Communism is sweeping Germany, increasing with each widespread depreciation of the value of the mark. Frankfurt on the Main, one of Germany's largest industrial cities, just outside the French zone of occupation in the Ruhr, has been the scene of the greatest outbreaks, many being killed and wounded there, and far graver trouble is anticipated, now that the Government has forbidden further meetings there of the radical elements.

Dodge Brothers Plan Larger Production at New Enlarged Plant

An immense new assembly building duplicating the present structure in size, is announced by Dodge Brothers as the principal unit of the 1923 expansion program.

The building is six stories high, 1000 feet long and 75 feet wide, with more than one-half million square feet of floor space. Construction work which started some months ago is now nearly completed. The new assembly building paralleling the old structure marked the boundary line of the great Dodge Brothers factories.

Factory executives would not comment on the number of additional cars contemplated in this extensive addition, but it is believed that the immediate aim is a capacity of 1,000 cars a day. In the face of the great over sold condition which prevailed throughout the entire year just past, it is not unreasonable to assume that this number mentioned could be absorbed easily by Dodge Brothers and dealers.

Other units of the expansion program are the new cyanide building, a million dollar addition to the power house, and a mammoth new closed body building. The latter is completed, several floors having been occupied for some time. It is estimated that the total investment represented by these additions in buildings alone, will reach \$5,000,000.

Fishing at McCaleb Well Is Successful and Drilling Starts

Fishing operations which have been under way at McCaleb well No. 1 near Doans, ever since operations at the well were resumed several weeks ago, have proven successful and drilling has been resumed. The tools which were lost were fished out yesterday at noon and today the drill is going down.

This well was started about three years ago but operations were suspended more than two years ago and were only recently resumed.

JERSEY CATTLE BREEDERS INTERESTED IN FAIR

Each succeeding year at the State Fair of Texas, the showing of Jersey cattle has reflected the growth of the breed in Texas. There will be no exception at the 1923 State Fair. Interest of Jersey owners and breeders has already centered about the State Fair of Texas, October 13 to 23. A national publication has asked for the date on which Jersey cattle will be judged at the Texas exposition. It will be October 18, and the judge will be C. H. Staples of Baton Rouge, La.

Couple Married in Chillicothe June 29 Now Reveal Secret

Mr. and Mrs. Damon Shive, popular couple of Vernon have announced their marriage which occurred at Chillicothe, Friday night at 9:30 o'clock, June 29. The ceremony was performed by the pastor of the Presbyterian church at the manse there.

HARROLD SCHOOLS MAKE BIG STRIDE

GET ADDITIONAL CREDITS WITH
COLLEGES AND MAKE IM-
PROVEMENTS IN BUILDINGS

The Harrold School has just had a report from the State Department of Education stating that Harrold now has thirteen and one-half units affiliation with Texas colleges. This affiliation is in the following subjects: three in English, three in history, two in algebra, one in plane geometry, one in physics, two in home economics, one and one-half in agriculture. This was all that was asked for this year. About four and one-half units additional will be asked for next year, making all that is needed for colleges entrance.

This makes three years of continued growth for the Harrold Schools, first getting second class, then last year getting first class classification, and then this year getting affiliation.

The teachers for the ensuing year are: R. S. Covey, Superintendent; mathematics, agriculture and chemistry; E. E. Covey, history, math and civics; Miss Rebecca Dore Scott, English and history; Miss Bertha Stockard, home economics and English; Miss Honora Silbert, public speaking, music and expression; Miss Lena Stephens, sixth grade; Miss Vera Walker, fourth and fifth grades; Miss Edna Stephens, second and third grades; Miss Irby Cooke, first grade; All of the above teachers taught in the Harrold Schools last year with the exception of Miss Silbert.

A modern gymnasium is now under construction for the Harrold School. The building is 88' x 68'. It will have a large basketball court and room for other indoor sports. It will be used by the entire school. It will be equipped with modern shower baths, hot and cold water, etc. It will have a seating capacity of about five hundred people. It will be completed before school begins, which is September 3.

WARD INDICTED AGAIN IN PETERS KILLING

Walter S. Ward.

Walter S. Ward, son of the multi-millionaire New York baker, is shown on his way to the courthouse in White Plains, N. Y., to surrender to a second indictment charging him with murder in the first degree for killing Clarence Peters, a shiftless former United States sailor. Ward was indicted once before, but the indictment was dismissed without trial. The clamor this act caused forced Governor Smith to order Attorney General Sherman and Supreme Court Justice Wagner to call a second Grand Jury, which re-indicted the young millionaire. The real story of the killing has never been told Ward having contented himself with declaring he killed Peters when the latter tried to blackmail him.

Do You

have the money to do the things
that you want to do when you
want to do it? If not then there is
a reason. And that reason is you
are not making use of all the bene-
fits offered by a strong and friend-
